

SURFACE WASHING METHOD OF LIQUID TREATING MEMBRANE

Title:

Patent Number: JP52156176

Publication date: 77-12-26

Inventor(s): MIYATA YASUO

Applicant(s): ISHIKAWAJIMA HARIMA HEAVY IND CO LTD

Application Number: JP760072748 760622

Priority Number(s):

IPC Classification: B01D13/00; B01D31/00

Requested Patent:  JP52156176

Equivalents:

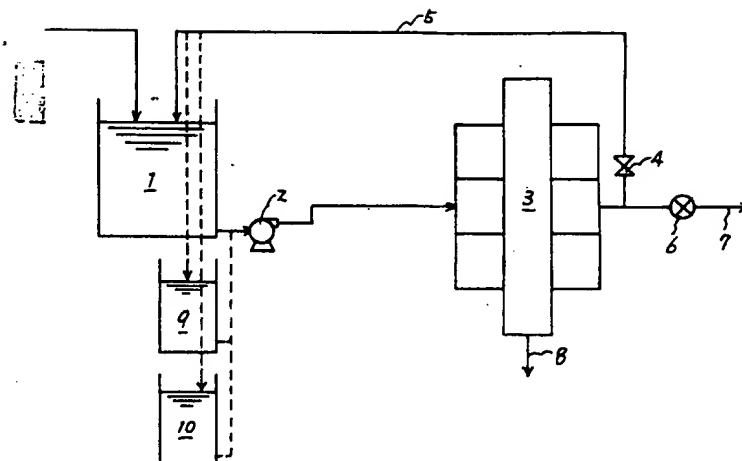

Abstract

PURPOSE: To effectively remove the adhered substance on the membrane surface of liquid treating membrane apparatus in a short time, by passing through pulsating washing liquid, after stopping the operation of membrane apparatus and reducing pressure.

浄タンク、10 ……清水タンク、11 ……脈動弁、
13 ……脈動ポンプである。
